

EARTH SCIENCE NEWS

MRS. CORONATI / PARKLAND HIGH SCHOOL

How to contact Mrs. Coronati

The best way to contact me is by email at coronatij@parklandsd.org

You can leave any make up work in the "Coronati" folder in the crate in your classroom. Write absent or late and date turned in on paper.

Leave a note in my mailbox in the main office.

Call 610 351 5900 x 72406

I have four classrooms:

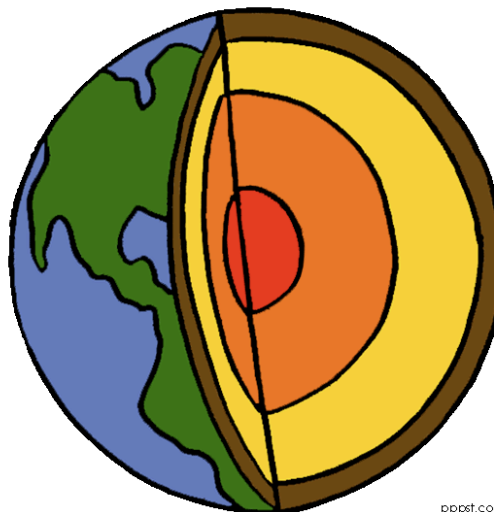

3rd & 4th: B123

6th & 7th: C235

8th & 9th: C233

My phone is located in the downstairs B-wing teachers room. I check voicemail at 8:00 am

I stay after school on most Thursdays in the library

ppst.com

Class Guidelines

- Arrive on time.
- You are responsible to make up work when you are absent. Check folder for papers . Tests must be made up during study halls or after school.
- Bring your book, a 1" or 1 1/2" 3 ring notebook(science only) , PHS Planner, pencil and pen.
- You will need colored pencils, ruler and calculator to complete your homework.
- Homework will be checked at the start of class. No credit for late homework.

Parent communication:

My email list is generated through Home Access Center. I send updates and reminders by email. Students and parents must update their email address on Home Access Center to be included on the email list. The email goes only to parents that are listed as guardians. If you need a password for Home Access Center, contact Joan McCue at mccuej@parklandsd.org or at 610 351 5700 ext. 65562.

Things to do to improve your grade

Access to Wiki Spaces Student Directions:

I have recently changed the permissions on my wikispace. Students and parents can view the wiki just like a web page. This wiki has an assignment calendar. A link to teacher web pages is also located in the upper right hand corner of the PHS website homepage.

1. Go to teacher's wikispace: phsoronati.wikispaces.com

Student Calculator

Every student should have their own calculator.

The TI-30XIIS is recommended for this course. It is a scientific calculator and includes exponents, square roots and sin, cos and tan. It can be purchased from Target, Walmart and Staples for under \$15.

Type to enter text

1. Do your homework
2. Pay attention in class
3. Ask a question
4. Read your textbook
5. Turn things in on time
6. Be in class
7. Review notes
8. Make vocab flash cards
9. Keep notebook in order
10. Study for tests

FROM THE TEACHER

Welcome to high school! You will notice that things here are quite a bit different than in middle school. You are responsible for your choices and academic success. If you are experiencing difficulty adjusting to the academic demands or social pressures, please ask for help. Ask a teacher, guidance counselor, coach or your parents. Don't wait until you are overwhelmed. PHS provides English and Math tutoring, guidance counselors and a great SST program.

Online textbook:

1. Go to www.glencoe.com
2. Choose Pennsylvania, Science and Parent/student.
3. Scroll down to Glencoe Earth Science 2002.
4. Choose online student edition/full version.
5. Username: ESGEU
6. Password: det79uEwu4
